

GUIDE: HOW TO BUY A GLITCH NFT

Step One - The Wallet

1. Visit <https://phantom.app/download> and select your browser type
2. Follow the steps provided to install the browser extension
3. You should now see Phantom start up in a new tab
4. If you already own Solana and are transferring from Sollet to Phantom:
 - a. Find your secret recovery phrase
 - b. Import your secret recovery phrase
5. If you are new to Solana, select create new wallet and SAVE your secret recovery phrase

Step Two - Purchasing Solana

1. Solana is available on many exchanges including Coinbase, FTX and Binance
2. You will have to make an account and purchase some Solana

Step Three - Adding your Solana to your Wallet

1. Find your Solana address by opening your Phantom wallet
2. Click 'Deposit SOL' or 'Receive' to discover your wallet address
3. Click the 'Copy' button. You have now copied your wallet address
4. Go to the exchange you purchased Solana on, and in the 'Wallet' section, find the 'Withdrawal SOL' or 'Send / Receive' option
5. Past your copied wallet address from #3 in Step Three, and choose your withdrawal amount
6. Click 'Send Now'
7. Your Solana should now be in your Phantom wallet

Step Four - Purchasing a GLITCH NFT

1. Using the retail site of your choice, be it Magic Eden or OpenSea, connect your Phantom wallet by following the steps provided
2. Once connected, you can easily pay for NFTs
